RoHS Certificate of Compliance

After careful evaluation of EU Directives on Restriction of Hazardous Substances (RoHS), Heyco Products, Inc. hereby certifies that all product lines including conduit, tubing, liquid tight fittings, cordgrips, strain relief bushings, bushings, plugs, wire positioning devices, wire connecting, terminating, IEC connectors, and all metal stamped products are fully compliant to the following EU Directives:

- 2011/65/EU RoHS (version dated 2011 June 8), **R**estriction of the use of certain **H**azardous **S**ubstances in electrical and electronic equipment (recast)
- ELV (version dated 2000 September 18), **E**nd-of-**L**ife **V**ehicle, 2000/53/EC
- WEEE (version dated 2003 January 27), **W**aste **E**lectrical and **E**lectronic **E**quipment, Directive 2002/96/EC
- Directive 2006/122/EC of 12 December 2006 for restriction of Perfluorooctane sulfonates

Additionally, none of our products nor packing materials contain any unconditionally banned substances, including Cadmium (Cd) and its compounds, Lead (Pb) and it's compounds, Hexavalent chromium (Cr) compounds, Mercury (Hg) and it's compounds, and prohibited flame retardants, namely Polybrominated biphenyls (PBB's), nor Polybrominated diphenyl ethers (PBDE's), nor Polyfluoroalkyl compounds (PFCs) as listed in the table below in concentrations exceeding the Maximum Trace Level (MTL):

Substance	Maximum Trace Level ⁽²⁾
Lead (Pb) ⁽¹⁾	0.1% by weight (or 1000 ppm)
Mercury (Hg)	
Hexavalent Chromium (Cr+6)	
Polybrominated Biphenyls (PBB)	
Polybrominated Diphenyl Ethers (PBDE)	
Cadmium (Cd)	0.01% by weight (or 100 ppm)
Polyfluoroalkyl compounds (PFCs), i.e. ➤ Perfluorooctane sulfonates (PFOS) and ➤ Perfluorooctanoic acid (PFOA)	0.005% by mass (or 50 ppm)

(1) Lead, as an alloying element, is allowed up to 4.0% (40,000 ppm) in copper alloys, up to 0.35% (3,500 ppm) in steel, and up to 0.40% (4,000 ppm) in aluminum alloys.
 (2) The MTL does not apply to applications for which exemptions have been granted to the EU Directives

Regarding the use of decaBDE, which belongs to the group of polybrominated diphenyl ethers (PBDE's), none of our products contain any banned decaBDE's.

We anticipate this response satisfies your concerns regarding our products and requirements for RoHS and WEEE compliance information, if not, please contact us and we will do our best to provide additional information.

Thank you,

Patrick Sardoni

June 4, 2015

Subject: People's Republic of China Electronic Industry Standards SJ/T 11363 – 2006 and SJ/T 11364-2006 for Concentration Limits for Certain Hazardous Substances in Electronic Information Products, (EIP) and Marking for Control of Pollution Caused by EIP.

All molded products produced and supplied by Heyco Products, Inc. do not contain any hazardous substances as per the above referenced standard.

Metal stamped products of Heyco do contain lead of approximately 0.3%, which exceeds the concentration limit of 0.1% as per the above referenced standard for concentration limits. This amount of lead however, meets the requirements for the Restriction of the use of certain Hazardous Substances, (RoHS) 2011/65/EU RoHS (version dated 2011 June 8), **Restriction of** the use of certain **Hazardous Substances** in electrical and electronic equipment (recast), for the exception of copper alloys. This is the only reportable hazardous substance contained in the copper alloy used for Heyco metal stamped products.

Since all products supplied by Heyco are compliant to existing industry regulations and standards, and have been compliant since inception, there are no plans to provide any additional marking or labeling to indicate compliance to the above referenced standards for "Electronic Information Products".

Based upon information from our suppliers and our manufacturing processes, raw material used meets all requirements for non-use of hazardous substances. Additionally, no components or any other materials are added to the process that would affect or alter toxicity of the finished products.

We anticipate this response satisfies your concerns regarding our products and our policy regarding requirements for People's Republic of China Electronic Industry Standards, if not, please contact us and we will do our best to provide additional information.

Thank you,

Patrick Sardoni
